

STAT:7101 (22S:254) Advanced Inference II (Spring 2015)

Time and Location MWF 9:30-10:20AM, 31 SH.

Instructor Jian Huang

Statistics and Actuarial Science

University of Iowa

Office: 221 SH, Phone: 335-0823

Email: jian-huang@uiowa.edu

Departmental Executive Officer Joe Lang, 241 SH, Phone: 335-0712.

Prerequisites STAT:7100 (22S:253).

Office Hours MWF 3:30-4:20pm or by appointment.

Required Textbook Van der Vaart (1998). *Asymptotic Statistics*. Cambridge University Press.

References

- Cox D. R. and Hinkley, D. V. (1974). *Theoretical Statistics*. Chapman & Hall.
- Van der Vaart A. W. and Wellner, J. A. (1996). *Weak Convergence and Empirical Processes*. Springer, New York.

Exams and projects There are two in-class midterm exams (on Feb 27 and Apr 3) and a final project. Each student is expected to give an oral presentation based on the project.

Homework Homework is an important component of the course. It will be assigned weekly and must be turned in by the beginning of class on the day they are due. Unless prior arrangements are made, late homework will not be accepted.

Attendance Attendance at lectures and participation in discussions are expected. Failure to attend class regularly will affect your grade.

Grading Homework, 30%, midterm 1, 25%, midterm 2, 25%, project, 20%. Grade will be determined by the weighted total score. Scale runs like the following (and I may adjust it a little): A (90-100), B (75-89), C (55-74), D (40-54). A plus-minus grading system will be used.

Course Objectives

To equip Ph.D. students in statistics, biostatistics and related fields with a solid background in mathematical statistics that will be helpful to their future work and research in statistics and related fields.

Topics to Be Covered

1. Contiguity (Chapter 6)
2. Topics in classical nonparametric statistics (Chapters 11-14)
 - Projections and U-statistics
 - Rank, sign and permutation tests
 - Relative efficiency
3. Likelihood ratio and chi-square tests (Chapters 16-17)
 - Likelihood ratio tests

Rao's score and Wald's tests

Chi-square tests

Asymptotic behavior under nonstandard conditions

4. EM-algorithm

5. Regularization methods

Convex methods: Lasso, group Lasso

Concave methods: SCAD, MCP, concave group selection

Computational algorithms

Theoretical properties

6. Empirical processes (Chapters 18-19)

Stochastic convergence in metric spaces

Glivenko-Cantelli and Donsker classes

Applications in statistics

7. Selected topics (Chapters 20-23, if time permits)

Functional delta method

Bootstrap

Additional UI and CLAS Policy and Procedures

Administrative Home The College of Liberal Arts and Sciences is the administrative home of this course and governs matters such as the add/drop deadlines, the second-grade-only option, and other related issues. Different colleges may have different policies. Questions may be addressed to 120 Schaeffer Hall or see the CLAS Student Academic Handbook [www.clas.uiowa.edu/students/academic_handbook/index.shtml].

Electronic Communication University policy specifies that students are responsible for all official correspondences sent to their standard University of Iowa e-mail address (@uiowa.edu). Students should check this account frequently. (Operations Manual, III.15.2. Scroll down to k.11.)

Accommodations for Disabilities A student seeking academic accommodations should first register with Student Disability Services and then meet privately with the course instructor to make particular arrangements. See www.uiowa.edu/~sds/ for more information.

Academic Fraud All CLAS students have, in essence, agreed to the College's Code of Academic Honesty: "I pledge to do my own academic work and to excel to the best of my abilities, upholding the IOWA Challenge. I promise not to lie about my academic work, to cheat, or to steal the words or ideas of others; nor will I help fellow students to violate the Code of Academic Honesty." Any student committing academic misconduct is reported to the College and placed on disciplinary probation or may be suspended or expelled (CLAS Academic Policies Handbook).

CLAS Final Examination Policies Final exams may be offered only during finals week. No exams of any kind are allowed during the last week of classes. Students should not ask their instructor to reschedule a final exam since the College does not permit rescheduling of a final exam once the semester has begun. Questions should be addressed to the Associate Dean for Undergraduate Programs and Curriculum.

Making a Suggestion or a Complaint Students with a suggestion or complaint should first visit the instructor, then the course supervisor, and then the departmental DEO. Complaints must be made within six months of the incident. See the CLAS Student Academic Handbook.

Understanding Sexual Harassment Sexual harassment subverts the mission of the University and threatens the well-being of students, faculty, and staff. All members of the UI community have a responsibility to uphold this mission and to contribute to a safe environment that enhances learning. Incidents of sexual harassment should be reported immediately. See the UI Comprehensive Guide on Sexual Harassment at www.uiowa.edu/~eod/policies/sexual-harassment-guide/index.html for assistance, definitions, and the full University policy.

Reacting Safely to Severe Weather In severe weather, class members should seek appropriate shelter immediately, leaving the classroom if necessary. The class will continue if possible when the event is over. For more information on Hawk Alert and the siren warning system, visit the Public Safety website <http://www.uiowa.edu/~pubsfty/intlinks.htm>.

Student Classroom Behavior The ability to learn is lessened when students engage in inappropriate classroom behavior, distracting others; such behaviors are a violation of the Code of Student Life. When disruptive activity occurs, a University instructor has the authority to determine classroom seating patterns and to request that a student exit the classroom, laboratory, or other area used for instruction immediately for the remainder of the period. One-day suspensions are reported to appropriate departmental, collegiate, and Student Services personnel (Office of the Vice President for Student Services and Dean of Students).
