General Information

- **Instructor:** Michelle Larson, 221 SH, 335-0814, michelle-larson@uiowa.edu  
  Office Hours: 9:30-11:00am and 2:30-4:00pm Mondays, and by appointment

- **TAs:** Lecture A - Steve Manning, 267 SH, steven-manning@uiowa.edu  
  Office Hours: 1:00-3:00 pm Tuesdays, 1:00-2:00 pm Thursdays, and by appointment
- Lecture B - Yingying Liu, 366 SH, yingying-liu@uiowa.edu  
  Office Hours: 8:30-10:00 am Tuesdays, and by appointment
- Lecture B - Fuli Zhang, 223 SH, fuli-zhang@uiowa.edu  
  Office Hours: 1:30-3:00 pm Mondays, and by appointment

- **DEO:** Joseph Lang, 241 SH, 335-0712

- **Calculator:** Students are strongly encouraged to use a calculator capable of performing statistical computations. In-class support will be given for students using a TI-83 or TI-84; limited help from the instructor is available for other models (e.g. TI-89, Casio models). Students will not be allowed to use calculators on their laptop, tablet, watch, or other electronic devices during exams.

- **Reference Textbook:** NONE - Course is taught from instructor notes; web links provided in notes; see instructor if you require further resources or desire book recommendations

- **ICON/Web:** This course will use ICON powered by Canvas (http://icon.uiowa.edu) for announcements, quizzes, homework assignments, etc.

Course Objectives

- In this course we will cover the following topics (in roughly this order):
  * Summary statistics, Statistical graphics
  * Probability (addition and product rules, conditional probability, Bayes theorem)
  * Random Variables and Probability Distributions (expectation, variance, Binomial, Poisson)
  * Normal distribution, Sampling distributions, Central Limit Theorem (CLT)
  * Sampling techniques (SRS, stratified, cluster)
  * Experimental design (treatment and control groups, randomization, blinding)
  * Inference for \( p \) and \( p_1 - p_2 \)
  * Inference for \( \mu \) (\( \sigma \) known, \( \sigma \) unknown)
  * Inference for \( \mu_1 - \mu_2 \) (\( \sigma_1 = \sigma_2 \), \( \sigma_1 \neq \sigma_2 \))
  * Type I & II errors, statistical power
  * Correlation and simple regression (including inference)
  * Inference for two-way contingency tables
  * Nonparametric Tests (time permitting)
  * ANOVA (time permitting)
  * Multiple regression (time permitting)

- Students will learn how to assess significance for all inferential procedures.
- Students are encouraged to use technology to perform statistical analyses described in class, however, explicit work (formulas, computations, etc.) is required to be shown.
Grading

- Exams: There will be 2 midterm exams (22.5% each) and a final exam (35%). Midterms will be given during regular class time. Exam dates:
  * Exam 1: Wednesday, February 21
  * Exam 2: Wednesday, April 4
  * Final Exam: TBA

Students are expected to be present for the exams at the scheduled time. If you have a legitimate, unavoidable conflict, it is your responsibility to make the appropriate arrangements at least 24 hours in advance. If you miss an exam due to a sudden absence, email the instructor immediately. Note that during exams, students will be asked to place belongings, including electronic devices other than stand-alone calculators, at the front of the room.

- Homework: (10% total) Homework will be due each Wednesday at the beginning of lecture. Because the grader will not have enough time to grade each problem, a subset of the assigned problems will be graded. Homework turned in late (including at the end of class) or illegible will be given a score of zero. The lowest homework score will be dropped. Students are encouraged to work together on homework but work submitted must be your own. Homework must be stapled, defuzzed, be neatly written; solutions must appear in the order assigned. Be sure your name, discussion section or time, and the assignment number appear at the top of the first page.

- Online Quizzes: (5% total) An online (ICON/Canvas) quiz will be given following each lecture. Students will have until the beginning of the next lecture to complete the quiz. Make-up quizzes will not be allowed under any circumstances. The lowest four quiz scores will be dropped.

- Project: (5% total) Students will complete an individual project due Friday, March 23. The project will be submitted on paper and via Canvas. Detailed information will be given in class.

- Discussion: (0% total) Students are expected to attend and participate in discussion. Material will be covered in discussion that will not be provided in lecture.

- Your attendance, participation, preparedness, work ethic, etc. may affect your final grade.

- This course uses the +/- grading system (i.e. grades such as A-, B+, and B will be assigned). I do NOT anticipate a curve.

- Grade cutoffs will be no higher than the usual 90 (A-), 80 (B-), 70 (C-), 60 (D-) breakdown.

- Bonus points may be given at any time and may be applied to any part of your grade.

Extra Help

- Students are encouraged to seek help from their TA or any other TA for this class, the instructor, and/or peers. A list of non-free private tutors can be found at http://www.stat.uiowa.edu/resources/tutoring. While not specific to our class, graduate students in the Statistics Tutorial Lab may also be able to assist you. Hours for the lab can be found on this same web page.

Notes

- Do not miss class. You need to attend every day to succeed in this class.

- Please refrain from eating, using your phone, wearing earbuds, and using other electronic devices during class.

- Success in this class requires a large time commitment. A minimum of 10 to 15 hours per week is expected. Review/study numerous times throughout the week.

- The material in this course appears deceptively easy. Students are encouraged to work lots of practice problems. Frequently quizzing/testing yourself is the best, most efficient way to learn the material. Don’t memorize; try to understand.

- If you are absent from discussion or lecture (without giving prior notice to your TA), we cannot provide handouts/notes.

- When you are done reading this document, email me a picture of a sailboat for 5 bonus quiz points.
**Academic Misconduct**

- During exams, you may not talk, whisper, pass notes, view other students’ work, allow a fellow student to view your own work (cover your paper!), use class notes, etc. All such actions are considered academic misconduct and will be reported to the UI.

- You may, however, work with a fellow student on your homework provided you *both do all of the problems in their entirety* (at which point you can compare methods, approaches, and answers). *Simply copying another student's homework will be considered academic misconduct.*

**The College of Liberal Arts and Sciences Policy and Procedures**

- **Administrative Home:** The College of Liberal Arts and Sciences is the administrative home of this course and governs matters such as the add/drop deadlines, the second-grade-only option, and other related issues. Different colleges may have different policies. Questions may be addressed to 120 Schaeffer Hall, or see the CLAS Academic Policies Handbook at [http://clas.uiowa.edu/students/handbook](http://clas.uiowa.edu/students/handbook).

- **Electronic Communication:** University policy specifies that students are responsible for all official correspondences sent to their University of Iowa e-mail address (＠uiowa.edu). Faculty and students should use this account for correspondences (Operations Manual, III.15.2, k.11, [http://opsmanual.uiowa.edu/human-resources/professional-ethics-and-academic-responsibility#15.2](http://opsmanual.uiowa.edu/human-resources/professional-ethics-and-academic-responsibility#15.2)).

- **Accommodations for Disabilities:** The University of Iowa is committed to providing an educational experience that is accessible to all students. A student may request academic accommodations for a disability (which includes but is not limited to mental health, attention, learning, vision, and physical or health-related conditions). A student seeking academic accommodations should first register with Student Disability Services and then meet with the course instructor privately in the instructor’s office to make particular arrangements. Reasonable accommodations are established through an interactive process between the student, instructor, and SDS. See [http://sds.studentlife.uiowa.edu/](http://sds.studentlife.uiowa.edu/) for information.

- **Nondiscrimination in the Classroom:** The University of Iowa is committed to making the classroom a respectful and inclusive space for all people irrespective of their gender, sexual, racial, religious or other identities. Toward this goal, students are invited to optionally share their preferred names and pronouns with their instructors and classmates. The University of Iowa prohibits discrimination and harassment against individuals on the basis of race, gender, sexual orientation, national origin, and other identity categories set forth in the University’s Human Rights policy. For more information, contact the Office of Equal Opportunity and Diversity, diversity@uiowa.edu or visit [http://diversity.uiowa.edu](http://diversity.uiowa.edu).

- **Academic Honesty:** All CLAS students or students taking classes offered by CLAS have, in essence, agreed to the College’s Code of Academic Honesty ([http://clas.uiowa.edu/students/handbook/academic-fraud-honor-code](http://clas.uiowa.edu/students/handbook/academic-fraud-honor-code)): “I pledge to do my own academic work and to excel to the best of my abilities, upholding the IOWA Challenge ([http://fye.uiowa.edu/youre-here/iowa-challenge](http://fye.uiowa.edu/youre-here/iowa-challenge)). I promise not to lie about my academic work, to cheat, or to steal the words or ideas of others; nor will I help fellow students to violate the Code of Academic Honesty.” Any student committing academic misconduct is reported to the College and placed on disciplinary probation or may be suspended or expelled (CLAS Academic Policies Handbook, [http://clas.uiowa.edu/students/handbook](http://clas.uiowa.edu/students/handbook)).

- **CLAS Final Examination Policies:** The date and time of every final examination is announced by the Registrar generally by the fifth week of classes. **No exams of any kind are allowed during the last week of classes.** All students should plan on being at the UI through the final examination period. It is the student’s responsibility to know the date, time, and place of the final exam.

- **Making a Suggestion or a Complaint:** Students with a suggestion or complaint should first visit with the instructor (and the course supervisor), and then with the departmental DEO. Complaints must be made within six months of the incident (CLAS Academic Policies Handbook, [http://clas.uiowa.edu/students/handbook](http://clas.uiowa.edu/students/handbook)).
- **Understanding Sexual Harassment:** Sexual harassment subverts the mission of the University and threatens the well-being of students, faculty, and staff. All members of the UI community have a responsibility to uphold this mission and to contribute to a safe environment that enhances learning. Incidents of sexual harassment should be reported immediately. See the UI Office of the Sexual Misconduct Response Coordinator (http://osmrc.uiowa.edu/) for assistance, definitions, and the full University policy.

- **Reacting Safely to Severe Weather:** In severe weather, class members should seek appropriate shelter immediately, leaving the classroom if necessary. The class will continue if possible when the event is over. For more information on Hawk Alert and the siren warning system, visit the Department of Public Safety website (http://police.uiowa.edu/emergency-communications).
