General Information

- **Instructor:** Matt Bognar, 358 SH, 335-0799, mbognar@stat.uiowa.edu
- **Office Hours:** 1:30-3:15 Monday, 11:00-12:15 Wednesday, and by appointment
- **DEO:** Luke Tierney, 241 SH, 335-0712
- **ICON/Web:** This course will use ICON (http://icon.uiowa.edu) and our course website (http://www.stat.uiowa.edu/~mbognar) for announcements, homework assignments, etc.

Course Objectives

- In this course we will cover the following topics (in roughly this order):
  1. Data collection, summary statistics, graphical displays
  2. Probability theory
  3. Random variables
  4. Common statistical distributions
  5. Joint probability distributions
  6. Sampling distributions
  7. Confidence intervals
  8. Hypothesis testing
  9. Type I & II errors, statistical power
  10. Regression
  11. Other topics (if time)

- We will learn how to do many of the statistical analyses described in class using the statistical software package Minitab. Minitab is available in the campus computer labs. There is a free online version as well; go to http://virtualdesktop.uiowa.edu. Hand computation will be stressed, however.
- Supplementation to the textbook, when needed, will be provided.
- We will **not** cover all parts of each chapter listed above. Focus your readings on the material that was covered in class.

Grading

- **Exams:** There will be 2 midterms (17.5% each) and a final exam (25%). All exams are 2 hours in length. Exam dates:
  * Exam 1: Thursday, February 18, 5:30-7:30 PM, Shambaugh Auditorium (Main Library)
  * Exam 2: Thursday, April 1, 5:30-7:30 PM, Shambaugh Auditorium (Main Library)
  * Final Exam: Wednesday, May 12, 2:15-4:15 PM, Room TBA

  Students are expected to be present for the exams at the scheduled time. It is your responsibility to make the appropriate arrangements beforehand.

- **Quizzes:** (25% total) A quiz will be given in lecture each Friday (except on exam days). *Make-up quizzes will not be allowed under any circumstances.* The lowest two quiz scores will be dropped. Unannounced quizzes may be given at any time.
Homework: (15% total) Homework will be due each Friday. Because the TA’s will not have enough time to grade each problem, a subset of the assigned problems will likely be graded. Late homework will not be accepted under any circumstances. The lowest two homework scores will be dropped. Homework must be stapled, defuzzed, be neatly written in pencil, and look professional (points will be deducted for failing to do so). Excessively sloppy homework will receive a score of 0. Print your name in the upper right corner of your homework before handing-in.

You are expected to attend all lectures in their entirety. Your attendance, participation, preparedness, work ethic, etc. may affect your grade.

This course uses the +/- grading system (i.e. grades such as A-, B+, and B will be assigned).

Grades will follow the usual 90, 80, 70, 60 breakdown. This class is not “curved”.

Bonus points may be given at any time. The bonus points may be applied to any part of your grade.

Statistics Tutorial Lab: There is a free statistics tutorial lab in room 202 Communications Center. During available times, a knowledgeable person will be present to assist students. Hours for the lab can be found at http://www.stat.uiowa.edu/courses/tutorial-lab.html

A list of non-free tutors can be found at http://www.stat.uiowa.edu/courses/tutors.html

The College of Liberal Arts and Sciences Policy and Procedures

Administrative Home of the Course: The College of Liberal Arts and Sciences is the administrative home of this course and governs matters such as the add/drop deadlines, the second-grade-only option, and other related issues. Different colleges may have different policies. Questions may be addressed to 120 Schaeffer Hall, or see the CLAS Student Academic Handbook http://www.clas.uiowa.edu/students/handbook/

Electronic Communication: University policy specifies that students are responsible for all official correspondences sent to their University of Iowa e-mail address (@uiowa.edu). Faculty and students should use this account for correspondences. (Operations Manual, III.15.2. Scroll down to k.11.)

Academic Fraud: Plagiarism and any other activities when students present work that is not their own are academic fraud. Academic fraud is a serious matter and is reported to the departmental DEO and to the Associate Dean for Undergraduate Programs and Curriculum. Instructors and DEOs decide on appropriate consequences at the departmental level while the Associate Dean enforces additional consequences at the collegiate level. See the CLAS Academic Fraud section of the Student Academic Handbook.

CLAS Final Examination Policies: Final exams may be offered only during finals week. No exams of any kind are allowed during the last week of classes. Students should not ask their instructor to reschedule a final exam since the College does not permit rescheduling of a final exam once the semester has begun. Questions should be addressed to the Associate Dean for Undergraduate Programs and Curriculum.

Making a Suggestion or a Complaint: Students with a suggestion or complaint should first visit the instructor, then the course supervisor, and then the departmental DEO. Complaints must be made within six months of the incident. See the CLAS Student Academic Handbook.

Accommodations for Disabilities: A student seeking academic accommodations should first register with Student Disability Services and then meet privately with the course instructor to make particular arrangements. See http://www.uiowa.edu/~sds for more information.

Understanding Sexual Harassment: Sexual harassment subverts the mission of the University and threatens the well-being of students, faculty, and staff. All members of the UI community have a responsibility to uphold this mission and to contribute to a safe environment that enhances learning. Incidents of sexual harassment should be reported immediately. See the UI Comprehensive Guide on Sexual Harassment for assistance, definitions, and the full University policy. http://www.uiowa.edu/~eod/policies/sexual-harassment-guide/index.html

Reacting Safely to Severe Weather: In severe weather, class members should seek appropriate shelter immediately, leaving the classroom if necessary. The class will continue if possible when the event is over. For more information on Hawk Alert and the siren warning system, visit the Public Safety website, http://www.uiowa.edu/~pubsfty
