WWW: For selected course material such as handouts, homework assignments and solutions go to http://icon.uiowa.edu

DISCUSSION & COMPUTER LAB: The TA will answer questions, work problems, and proctor quizzes.

COURSE COVERAGE: Chapters 1-10, 14.
HOMEWORK: In general, one homework will be assigned each week (mostly on Mondays). Homework is not collected. Instead, homework answers are posted on ICON. Students take homework quizzes in Discussion on Mondays instead of graded homework. Make up homework quizzes are not given under any circumstances. The lowest quiz score is dropped from the calculation of the course grade.

QUIZZES: Quizzes will be given in discussions most Thursdays. The lowest quiz score is dropped from the calculation of the course grade. For each quiz, you may use one standard sheet of paper (8.5 in x 11 in), front only, of handwritten or word-processed formulas and notes.

ATTENDANCE: Random checks for attendance will be taken. You are responsible for everything we go over in class. Please let us know if you have a problem and we will try our best to accommodate your situation. No family vacations will be accommodated. This is an intense class and you are expected to attend all classes.

EXAMS: A midterm exam and a comprehensive final exam. The TA will write some of the questions based on discussions. For the midterm Exam, you may use one standard sheet of paper (8.5 in x 11 in), front and back, of handwritten or word-processed formulas and notes. For the Final Exam, you may use two standard sheets of paper, front and back, formulas and notes. (Save your sheets from the midterm Exam to reuse on the Final Exam.) Makeup exams may be requested only with written documentation of a university-approved absence.

COURSE NOTES: Presentation slides and review questions will be posted in advance on canvas. You must come to class with your text-book and a copy of all review question. Solutions to review questions will be provided in class only.

CALCULATOR: You may use any calculator type in this course. A calculator that computes one-variable statistics such as the mean and standard deviation is useful. For calculator help you may use http://mathbits.com/MathBits/TISection/Openpage.htm

ELECTRONIC ETIQUETTE: Social networking during class is not allowed. Please keep cell phones in your bag. I may have to ask you to leave class otherwise. Please respect my request.
